

Guide for Match Result Submission - version May 2024

1. To Submit a Match Result

*** If you are using a smartphone to enter results – make sure your phone is set to LANDSCAPE mode – so that you can see all fields on each screen ***

A match result can be entered onto the Portal by the winning contact-name OR the losing contact-name for the draw round. In case of difficulties the result information can be sent by phone, TXT, or email to the Portal Manager or Area Coordinator or Competition Secretary, and they will enter the results on the winners behalf.

Registered contact-names for team events and Singles players can access the Portal via the BN website and click on 'Competition Portal' to link to the Portal Front End system. They can then Login to the Portal using their registered email address and password.

* Players who have entered competitions using **paper entry forms** submitted by their Club will have been MANUALLY REGISTERED on the Portal by the Portal Manager, using the players email address provided, a default birthdate and a default password, as these are required fields. *

Once the player is manually registered then a manual competition entry is done on the players behalf, and the entry is 'confirmed' with the players name to complete the process.

Self-Registered and manually registered players can **LOGIN to the Competition Portal via the BN website.**

Click the BLUE **LOGIN** box at the top of the Portal screen

Enter your email address and Password

If you have been manually registered on the system and don't yet have a password OR if you have forgotten your password THEN enter your email address and click on 'Reset Password'

A new password will be generated by the Portal system and sent to your email address. Login to your email – make a note of the new password & then on the LOGIN screen above enter your email and the NEW password and click on the BLUE Login box.

** The Manually Registered player on first Login **SHOULD NOW** select the 'My Account' field at the top of the screen and select 'Edit Profile' to change the default data entered at manual registration to correct data i.e. change birthdate to actual birthdate (birthdate is used by the system to indicate eligibility of Senior and Junior competitions), and to change the password to one of their own choosing.**

Once logged on successfully all your competition entries will be listed with a BLUE box labelled 'My Fixtures' to the right of each entry. Click on the BLUE box 'My Fixtures' - to enter results for the selected competition (make sure the correct **YEAR is chosen**).

* If the competition selected is a Team Competition then required fields are displayed for winning team players names and losers team players names – If a name is not known the system will accept a full stop in the name fields *

2. **The match result** will now appear on the draw page for that competition – if it does not appear straight away - then click 'Refresh' to refresh the page with the latest information.
 - a) **An automatic confirmation email** will be sent to the winning contact name and the losing contact-name detailing the result entered. If the losing contact-name disagrees with the result entered they should contact the Portal Manager asap and the scorecard score will be checked.
 - b) **An automatic winner's email notification** will be sent to the next round opponents in the competition– with contact details and challenger/opponent status
3. **The Winner's Scorecard**, for all rounds of a **TEAM** competition, must include full details of both teams names and must be photo'd/emailed to the Competition Secretary , or Area Co-ordinator – within 24 hours of the match date. Failure to comply may lead to disqualification of the winning team. Players on the scorecard will be affiliation checked.
4. **For team competitions** - the first round players of a competition constitute the 'Base Team'. One substitute is allowed to be used for all rounds of the competition and is known as the 'Base Substitute' – they must not have played in that competition for another team. If a substitute has been used by either team the winner's scorecard should show the substitute's name clearly labelled '**SUB**'.
For Singles competitions – A photo of the scorecard is not required to be emailed.
5. **A Walk-Over is** defined as a '**match played with a NIL score**'.
BE Rules stipulate that if a contact-name of a team gives a walk-over to an opponent then that default contact-name is not allowed to play in the same competition for another team as a player or as a substitute.
6. **For team competitions** a contact-name can request, via email to the Portal Manager, a 'change of ownership' to another playing member of the team. The new contact-name must be registered on the Portal. On change-over completion the Portal Manager will advise the new and old contact-names by email.
7. **If problems occur** with accessing either Internet or Portal then the winning contact-name should text or phone the result to the competition secretary or coordinator and the result will be submitted manually.
